What's Your Personality?

The "Dark Magic" Custom Chrome Series mic stand is a Celtic cross theme that originated in gothic, medieval art and architecture. Now appearing in jewelry, T-shirts, tattoos, coffee cups and other retail items, this theme is a symbol for pockets of today's most prolific popular culture centers including music and other forms of art.

One-hand Height Adjustment

Ultimate Support invented the one-hand height-adjustable mic stand nearly two decades ago. Custom Chrome Series mics stands feature Ultimate Support's patented one-hand clutch mechanism housed inside fun and ergonomic designs. Simply squeeze the non-slip, die-cast ergonomic clutch to quickly raise or lower your microphone.

Transport your Custom Chrome mic stand to your gigs – and store them after – with the included gig bag. Equipped with an internal pocket for the base, and plenty of room for the mic shaft (and whatever else you'd like to store there), the free gig bag will keep your stand free from blemishes and will ensure that you don't lose any pieces and parts of your mic rig ever again!
